TONY SAYS...

“The Green Party is not just another political party. Green politics is about ensuring we have a habitable world that people, including our grandchildren, can live in. In making decisions about transport we use, housing we live in, stuff we buy and the food we eat – we need to consider the natural world. Climate change and other pollution are real threats to our way of life, but they also provide opportunities to create a healthier, cleaner, peaceful, fairer, sustainable and more beautiful place to live, work and play.”

## THIS ELECTION ISN'T ABOUT THE NEXT 5 YEARS. IT'S ABOUT THE NEXT 50 YEARS.

The Green Party is offering real opposition to this Government's extreme Brexit. Only the Green Party has the vision to deliver an alternative future for our country, and our place in the world. And only the Green Party offers a different kind of politics.

Every Green vote on 8th June will **help make that vision a reality.**

To shape an economy for everyone while preserving a safe environment. To build affordable homes and provide properly funded public services. And to put power back in your hands through a citizens' democracy.

If you agree with us, stand with us. The Conservatives think they have this election sewn up. But it's in your hands. Stand with us for housing, schools, our NHS, our environment, and our future. We stand up for what matters. **Vote Green Party on 8th June.**
